

inspiring you to create

Graphic Designer | Brand Builder | Craft-A-Holic | Blogger | DIYer

Chelly Ontis

Chelly is a creative soul who took her passion for graphic design and turned it into a successful online business by helping other new and small companies look better online.

In 1997, Chelly started Elegant Designs (a graphic design studio) in Bismarck, ND designing logos and printed materials for local clients.

In 2016, she took her talents online through her love of crafting creating *We Can Make That!* for DIYers. After an intriguing pin caught her eye, she bought a domain and taught herself Wordpress. Using branding and her other talents, she grew that following to around 10,000 fans in just months.

Seeing a lot of her fans trying to grasp the same idea, she expanded Elegant Designs & We Can Make That! to help others with the same dream.

With her love of designing digital crafting files, Chelly inspires fellow DIYers to craft, and grow their creative businesses. Focusing on helping others see how simple steps in branding can attract more clients and help them grow fast.

Now offering her line of **Simplified Marketing**: Live training/coaching, eBooks, online training library, planners for entrepreneurs, and graphic design services for creative business owners
